

PANITA VAISHNAVI KANAGUDURU

689-249-6405 | panitakanaguduru.18@gmail.com | linkedin.com/in/panitak

PROFESSIONAL SUMMARY

Business Intelligence Analyst with 4 years of analytics and reporting experience using **Power BI, DAX, SQL, Python, Excel, Power Query, Power Automate, and Microsoft 365** to modernize manual reporting, integrate disparate data sources, and deliver actionable insights. Skilled in semantic modeling, KPI development, dashboard automation, data governance, scheduled refresh, data quality, executive reporting, and cross-functional stakeholder collaboration.

TECHNICAL SKILLS

Business Intelligence: Power BI, DAX, Semantic Models, KPI Dashboards, Report Design, Row-Level Security, Power BI Service, Scheduled Refresh

Data & Programming: SQL, Python, R, Excel, pandas, CTEs, Window Functions, Data Cleaning, Statistical Analysis

Automation & Integration: Power Automate, Power Query, MS Forms, SharePoint, ETL/ELT, Data Pipelines, Data Integration

Microsoft 365: Excel, Pivot Tables, XLOOKUP, Advanced Formulas, PowerPoint, Teams, SharePoint, Microsoft Forms

Analytics Delivery: KPI Definitions, Data Governance, Data Validation, Executive Reporting, Requirements Gathering, Documentation, AI-Assisted Analytics

EDUCATION

University of Central Florida

M.S. Statistics & Data Science

Oviedo, FL

May 2026

Sree Vidyanikethan Engineering College

B.S. Electrical & Electronics Engineering

Tirupati, India

May 2023

PROFESSIONAL EXPERIENCE

SuperWorld

Remote

Business Intelligence & Analytics Analyst

May 2025 – May 2026

- Analyzed **100K+** customer, CRM, transaction, campaign, and engagement records using **SQL, Python, Excel, Power BI, and Tableau** to monitor performance, identify trends, and support Product, Marketing, and Operations decisions.
- Built automated dashboards, semantic models, DAX measures, and reporting workflows, improving reporting accuracy by **30%** and reducing manual reporting effort by **40%**.

University of Central Florida

Oviedo, FL

Data & Business Intelligence Analyst

May 2025 – May 2026

- Used **Python, R, SQL, Excel, Power Query, and Power BI** to clean, integrate, and analyze operational and program datasets, define KPIs, validate records, and evaluate performance.
- Partnered with faculty and program stakeholders to gather reporting requirements, document metric definitions, resolve data-quality issues, and deliver dashboards and executive-ready reports.

SOTI Inc.

Kerala, India

Business Systems Analyst

Jul 2022 – Jul 2024

- Collaborated with **Product, Engineering, QA, Operations, and Support** teams to gather requirements, analyze workflows, support reporting systems, and improve enterprise processes.
- Used **SQL, Excel, Jira, GitLab, and API validation** to investigate data issues, perform root-cause analysis, validate business logic, and reduce recurring reporting and data-quality issues by **15%**.

PROJECTS

Learning & Development Analytics Dashboard

Power BI, DAX, SQL, Excel

- Built a Power BI solution integrating simulated LMS, learner activity, training completion, assessment, and operational performance data into a unified semantic model.
- Developed DAX measures and dashboards tracking enrollment, completion, engagement, skills gaps, time-to-proficiency, program effectiveness, and period-over-period performance.

L&D Reporting Automation & Governance Framework

Power Automate, Power Query, SharePoint, Power BI

- Automated report distribution, data alerts, Forms-based intake, and scheduled workflows using **Power Automate**, reducing repetitive reporting and manual tracking.
- Created standardized KPI definitions, refresh schedules, report inventories, documentation, and validation checks to support a trusted single source of truth.

CURRENT IMPLEMENTATION

- Building deeper expertise in **Power BI Service, row-level security, scheduled refresh, calculation groups, performance tuning, data governance, and Microsoft Fabric.**
- Advancing knowledge of **learning analytics, LMS platforms, the Kirkpatrick Model, time-to-proficiency, call-center metrics, SharePoint integration, and AI-assisted reporting.**
